Summary

Full Stack Developer with 2+ years of experience in Full Stack Development, MERN Stack Development, Software Development, and Web Application Development. Skilled in React.js, Node.js, Express.js, MongoDB, MySQL, REST API Development, Frontend Development, Backend Development, Database Management, API Integration, Authentication & Authorization, JWT Authentication, RBAC, CRUD Operations, Responsive Web Design, State Management, Real-time Applications, Socket.IO, Performance Optimization, Deployment, Git, Agile Methodology, and Scalable Software Engineering. Experienced in building enterprise-level applications, reusable UI components, backend services, and cloud-ready scalable applications.

Experience

Agami Technology

Jan 2024 – May 2026

Full Stack Developer

Noida, Uttar Pradesh

- Engineered scalable MERN Stack web applications supporting 40,000+ users using React.js, Node.js, Express.js, and MongoDB.
- Built and integrated 25+ RESTful APIs for Authentication, Authorization, Messaging Systems, Notifications, and User Management.
- Implemented JWT Authentication, Role-Based Access Control (RBAC), API Integration, and Real-time Chat Systems improving scalability and user engagement.
- Optimized backend workflows, MongoDB queries, and API response handling reducing server response time by 40%.
- Created reusable frontend components and responsive dashboards improving cross-device compatibility and user experience.
- Collaborated with 6+ cross-functional team members in Agile sprint cycles, delivering 15+ production features and reducing bug resolution time by 30%.
- Integrated automated notification systems, database optimization strategies, and secure access control mechanisms, reducing manual administrative effort by 35% and improving system reliability.

Skills

- **Programming Languages:** JavaScript, TypeScript, Java, C
- **Frontend Development:** React.js, Vue.js, HTML5, CSS3, Single Page Applications (SPA)
- **Backend Development:** Node.js, Express.js, RESTful APIs, API Development, JWT Authentication, Authorization, Socket.IO, API Integration, Backend Architecture
- **Database Technologies:** MongoDB, MySQL, Database Management, Database Optimization
- **Tools & Platforms:** Git, GitHub, GitLab, Postman, Firebase, Vercel, VS Code
- **Core Skills:** Full Stack Development, MERN Stack Development, Frontend Development, Backend Development, Web Application Development, Software Development, CRUD Operations, MVC Architecture, Authentication & Authorization, State Management, Deployment, Performance Optimization, Agile Methodology, Data Structures & Algorithms

Projects

SmartPost | React.js, Node.js, Express.js, MongoDB | Live Demo | GitHub

2025

- Built a scalable social productivity platform with 10+ REST APIs, responsive dashboards, and real-time collaboration features supporting 1,000+ user interactions.
- Developed Authentication systems, CRUD Operations, profile management modules, and secure public/private access systems.
- Implemented analytics dashboards and moderation systems improving application usability and user engagement.
- Optimized backend workflows and database queries improving system scalability and performance.

Study Orbit | React.js, Node.js, Express.js, MongoDB | Live Demo | GitHub

2025

- Architected a scalable MERN Stack EdTech platform supporting 500+ users with Authentication & Authorization and RESTful APIs.
- Integrated JWT Authentication, OTP Verification, Razorpay Payment Gateway, and Cloudinary Storage for secure course management.
- Implemented reusable frontend components and responsive UI reducing initial page load time by 25%.
- Built 12+ backend services and CRUD APIs using Node.js, Express.js, and MongoDB, reducing data retrieval time by 30% and improving scalability.

Tech Resume Builder | React.js, Node.js, Express.js, MongoDB | Live Demo | GitHub

2025

- Designed a Full Stack Resume Builder web application with real-time editing and PDF generation functionality.
- Implemented Authentication, reusable React components, dynamic forms, and responsive templates.
- Reduced resume editing time by 50% through frontend optimization and efficient state management.
- Built 8+ backend APIs and MongoDB database systems for secure data handling, supporting 500+ generated resumes with reliable data storage.

Education

Rajkiya Engineering College Banda <i>Bachelor of Technology (B.Tech) in Information Technology CGPA: 7.82</i>	Graduated: Jun 2023 <i>Banda, Uttar Pradesh, India</i>
Intermediate College Bhatawali Bazar <i>Higher Secondary Education (UP Board) Percentage: 76.4%</i>	Graduated: Apr 2018 <i>Gorakhpur, Uttar Pradesh, India</i>

Certifications

- Frontend Developer (React) - HackerRank
- Node.js (Intermediate) - HackerRank
- SQL (Intermediate) - HackerRank
- JavaScript (Basic) - HackerRank
- Problem Solving - HackerRank

Achievements

- Achieved 5-Star Java Badge on HackerRank.
- Solved 500+ coding problems across LeetCode, HackerRank, and GeeksforGeeks.
- Delivered scalable MERN Stack applications supporting 40,000+ users with Real-time Systems and REST API Integrations.
- Reduced API response time by 40% through backend optimization and database performance improvements.
- Built and deployed 10+ Full Stack web applications using React.js, Node.js, Express.js, and MongoDB.

Languages

- English - Professional Working Proficiency
- Hindi - Native Proficiency
